

# Jobs

Mar 1, 2016

The research group *Ontologies in Medicine and Life Sciences* (Onto-Med) at the Institute of Medical Informatics, Statistics and Epidemiology (IMISE), University of Leipzig, Germany opens a number of positions (50%-100% of TV-L E13) in publicly funded research projects regarding the development of ontologies and their application in various medical or biomedical areas. The positions start as soon as possible and are – without any fixed deadline – open until filled.

## Requirements

Candidates hold a M.Sc. degree in Computer Science, Medical Informatics or in a related field. They are able to work on both conceptual modeling of domains and practical implementation tasks related to the following areas: Ontologies, Semantic Web technologies, Semantic technologies in bioinformatics, medical informatics or another application field. Fluent English or German communication skills are required.

## How to Apply

Candidates are invited to apply with:

Curriculum vitae and copies of degree certificates, to be send by email or in written form to:

Prof. Dr. Heinrich Herre
