Subject: Information about the outcome of the evaluation of proposals
H2020 - H2020-ICT-2014-1
644969 - QROWD

Dear **Martin KALTENBÖCK**,

As coordinator you have submitted the proposal **644969 - QROWD** in the context of the above-mentioned call.

The Commission services have recently completed the evaluation of submitted proposals.

You will find the Evaluation Summary Report (ESR) for your proposal together with this letter in the "*My Area*" section of the Research *Participant Portal*. The ESR reflects the comments of the evaluators.

Based on the evaluation results, we regret to inform you that the Commission has decided that no financial contribution could be made for your proposal. The decision was motivated by the following:

The score obtained by your proposal does not reach the minimum threshold.

Finally, if you wish to file a complaint or request for review concerning the evaluation of your proposal, any such request must be submitted within thirty calendar days after notification of this letter. Such requests must be submitted by the coordinator via the following website: <https://webgate.ec.europa.eu/redress-frontoffice/work.iface>.

Please note, that the review procedure can only address procedural aspects of the evaluation, and not the individual merits of your proposal.

You may also bring an action for annulment under Article 263 TFEU against the Commission, within two months of the notification of this letter through the electronic exchange system.

Please be aware that if you request an evaluation review procedure, you cannot also file an Article 263 action at the same time. You must wait for the final decision of the Commission and can then file an action against that decision.

Please inform the other participants of the current situation.

Yours sincerely,

Gustav KALBE
Head of Unit
